NLTRW Bookmarkers

These bookmarkers have been designed for you to hand out to your students. They include the URL of the NLTRW website so that your students can fill out the feedback form online. Please encourage them to do so.

Suggestions for Best Results

Photocopy bookmarkers onto card stock. Print on colored paper or white. If your only choice is white, you can liven it up by using highlighters to color the words in white (NLTRW & Your Future is Our Future). The black background will be very forgiving if you go out of the lines and thus it is quick and easy to do. Laminate the sheets if possible and then trim according to the crop lines.
