*Excerpt: Excess of Democracy*

I asked for all data of 2013 applicants and matriculants to law school. Applicants self-identified one of 142 majors; they could select more than one if they so desired. I obtained the median LSAT scores, and the median GPA scores, for these groups.

Below is a chart identifying the median LSAT scores and GPA scores based on self-identified major, for majors with at least 150 students taking the exam, among all law school applicants. A few majors are labeled on the chart.

Mean LSAT & UGPA by college major for law school applicants in 2013
